Dear Mr. Simon,

Thank you for contacting Maxima and for your interest in our Bain Marie 09300009.

This model is equipped with a thermostat ranging from **30 °C to 95 °C**. The setting **"1"** corresponds to a temperature just above the minimum of this range, but it does not represent an exact temperature value.

If you would like to know the precise temperature at this setting, we recommend checking it with a thermometer, as the result may vary depending on usage and conditions.

Please don't hesitate to get back to us if you have any further questions.

Best regards,

Fadoua Rhlalou
